

WORLD HAPPENINGS BRIEFLY TOLD

Argentina has decided to adhere to the one year naval holiday.

Canada is sending a consignment of relief material for hurricane stricken Honduras.

Premier Brownlee, replying to a report from Ottawa, says no unauthorized work has been done in Alberta under the relief scheme.

The Federal Reserve Bank of New York, on October 31, reported receipt of a consignment of gold from Canada amounting to \$1,000,000.

A petrified section of an Ichthyosaurus from Hudson's Hope has been placed in the hands of the provincial museum of British Columbia.

Two raccoons and two black bear cubs will be sent to Australia as a gesture of courtesy for the two kangaroos sent to Toronto.

Advent of daylight saving time next year to Vancouver suffered a setback when the city council refused to submit a plebiscite on it at the December elections.

A large majority of the members of the International Peace Garden Commission favored the Turtle Mountain site for the garden, said J. H. Moore, secretary of the commission.

H. G. Wells, noted British author and historian, visiting Boston, predicted increased efficiency in industry would result in increasing unemployment.

The marked upward trend in Canadian business was noted in the value of retail sales during September, issued in a report by the Dominion Bureau of Statistics.

Only 1,004 Canadians received immigration visas for admission into the United States during September as compared with 6,151 in the corresponding month of 1928.

Orders have been received from China for 50 head of registered Ayrshire cows for the Hong Kong Dairy and Cold Storage Company. The order will be filled from herds in British Columbia.

A Human Seismograph

Britisher Claims Spinal Nerves So Sensitive He Can Record Earthquakes

G. H. Robson, an iron worker of Acomb, England, has mystified local physicians by offering proof of his claim that he is a human seismograph.

Robson said that, since the removal of a muscle from his back, his spinal nerves had become so sensitive that he was able to "record" earthquakes in Japan, India, New Zealand and the South Pacific Ocean.

"I can tell to the minute when each shock starts, how long it lasts and about how strong it is," he said. "During the present summer I have recorded 21 shocks. All were verified by official reports."

Physicians examined him and were checking the phenomenon for scientific purposes.

Bootleggers' Ring

Gen. V. A. C. Williams, head of the provincial police of Ontario, is convinced that a big bootleggers' ring exists in Ottawa district and says it will be stamped out if the whole of the police force in the Ottawa territory has to be changed.

A Tennessee man who died at 91 had never been farther away from home than 11 miles, had never seen a train, motor car, or electric lights. No runs, no hits, no errors.

Paint is something used to improve the looks of buildings and spoil those of the girls.

No Longer

Bilious—Thanks Vegetable Pills

"I suffered with Biliousness for days at a time. Every medicine I tried failed to bring relief. The first dose of your wonderful Carter's Little Liver Pills gave me great relief."—Mrs. C. Leigh. Dr. Carter's Little Liver Pills are no ordinary laxative. They are ALL VEGETABLE and have a very definite, valuable tonic action upon the liver. They end Constipation, Indigestion, Acidity, Headaches, Poor Complexion. All druggists. 25c & 75c red pkg.

W. N. U. 1914

New National Viewpoint

Canadian Writers Of Fiction Should Portray Scenes Of Our Own Country

Some sound advice was given to Canadian authors recently by John Burroughs, the well known English essayist. While he finds our literature of a surprisingly high average, he deprecates the lack of Canadian locales. He thinks the Canadian writer allows himself to be distracted by London and New York, to the detriment of his own country, when it comes to backgrounds and settings for stories, and that it would be better to portray the Canadian scene and situations.

There is no doubt whatever that Mr. Burroughs has put his hand upon a real need. There are very few novels about Canada and the people of Canada—novels that would convey to people outside Canada a clear idea of the Dominion, its inhabitants, their ideals, their methods, their mentality. Yet that is the sort of novel we need if our fiction is to become national in anything more than the publisher's imprint.

Mr. Burroughs sees a new national viewpoint and new standards of judgment needed for the young writers of this country. Doubtless both will come in time, but the present tendency is rather away from Canada and the national viewpoint than towards such an ideal. Our poets get much nearer to it than our writers of prose. The lure of the cheap magazine with its false standards of life has proved too strong for a good many Canadian writers, who might have done a good service to Canadian literature had they been able to withstand that lure. Criticism, such as Mr. Burroughs has offered, is, therefore, all the more to be noted as pungent and appropriate. —Montreal Star.

520

PARIS HAS MADE HIP SNUGGNESS MODISH IN THIS PRETTY DAY MODEL

The slenderizing front pointed seaming of the skirt gives charming height to the figure. And isn't the neckline becoming, collarless with applied hands and jabots?

Style No. 520 is designed for sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. The 36-inch size requires 3 1/2 yards of 39-inch material with 1/4 yard of 27-inch contrasting. Supple woollens, crepe marocain and crepe satin make up attractively in this model.

All patterns 25 cents in stamp or coin (coin preferred). Wrap coin carefully.

Many a man who refuses to labor tries to work other men.

"Will ye ha'e some water with it?" "Och, Sandy, nane at all! Ma mouth's full o' it!"—The Humorist, London, England.

Seeking To Solve Easter Island Mystery

Expedition Will Attempt To Find Origin Of Huge Stone Figures

Wealthy men can find many ways of amusing themselves, most of them beyond the means of the average citizen. Sometimes, however, a man of means develops a hobby or a sphere of interest that ends in a valuable contribution to the advancement of knowledge, for the command of money is not without its advantages on occasion. It is thus not only a personal adventure but no less a scientific expedition that takes Mr. Eldridge R. Johnson to Easter Island, one of the Polynesian group in the South Pacific Ocean where a long standing anthropological mystery still awaits solution.

In Easter Island great stone figures have been erected by unknown hands, some of them weighing many tons. Many of them remain, still looking out across the sea in their original position, but no one can tell their purpose or significance. Where they came from none can explain for they are fashioned from stone that has no counterpart on the island. Primitive peoples must have brought them a long way across the sea, in response to some forgotten motive, or else they may represent the remains of a lost civilization, long since submerged beneath the sea. The latter hypothesis is favored by many scientific men, who suppose that the makers of these images retreated to high ground as their land sank slowly beneath the Pacific and left little but their religious symbols for memorials.

These extraordinary and mysterious figures have puzzled visitors for a long time now and Easter Island has guarded its secret well. But now the semi-scientific expedition organized and financed by Mr. Johnson will make an exhaustive attempt to penetrate to the heart of the problem. Luxuriously appointed and including many competent scholars, the expedition will endeavour to compel the images to break their sphinx-like silence. It would be difficult to imagine a more magnificently romantic quest or one that could more intrigue both scientists and laymen. Many outsiders will envy the fortunate company who form the party. —St. Thomas Times-Journal.

Record For Sheep Shearing

Regina Man Does Work In Four Minutes 31 Seconds

Alex. Simpson, Regina, set a record for machine and hand shearing of sheep at the competition at the Regina Sheep and Swine Show, when he completely sheared an animal with power clippers in four minutes and 31 seconds.

In 1930 he beat the machine clippers with his hand shearing in six minutes and 15 seconds. The best hand shearing time for 1931 was made by Calvin Foster, Mather, Manitoba, in seven minutes, 15 seconds.

Making English Easy

An English professor has chosen 850 words of "basic English" which provide a vocabulary adequate for ordinary communication, to be used as an auxiliary world language and also for the use of foreigners who find English bewildering.

"Terrible! Waiter, my plate is quite damp."

"Pardon me, sir, that is your soup."

—Lustige Kölner Zeitung, Cologne.

The Antidote For Fear

Courage, Confidence and Hope Needed By World Today

The curse of humanity has always been fear.

Fear dates back to the beginning of man. Fear is the mother of hatred, the instigator of murder, the begetter of wars.

Fear is the enemy of sanity, the spoiler of judgment, the defiler of the soul.

Fear turns day into night and makes men walk in darkness. Fear is the forerunner of distress, the foe to prosperity, the preserver of poverty.

Fear is the failure of the spirit, the triumph of the primitive over the civilized, the victory of death over life.

As individuals and as a nation we should cast fear from us.

Courage, confidence, hope—these are the antidotes—and the world has great need of them today. Fear is the thing that halts progress and creates difficulties, makes people hesitate where courage would see them through.

Tender-handed stroke a nettle. And it stings you for your pains; Grasp it like a man of mettle— And as soft as silk remains. —London Daily Express.

Canadian Fruit and Honey Given Awards

Excellent Record Was Made At Imperial Fruit Show

Canadian apples and honey made an excellent record at the Imperial Fruit Show, which opened in Manchester, England, October 30.

Word was received by the Hon. Robert Weir, Minister of Agriculture, that in the class open to the British Empire, British Columbia won two second awards, one for dessert and the other for culinary apples. The entries included fruit grown in England as well as in Australia, New Zealand and South Africa. The southern Dominions' fruit had been scored in London early in June.

In the section open to Canadian-grown fruit, British Columbia and Nova Scotia divided honors.

The agent-general's cup for the exhibition gaining the highest number of points was won by Jas. Lowe, of Oyma, B.C.

For the first time in the history of the Imperial Fruit Show honey was included. In the three sections open to the Dominions and Colonies, Ontario exhibitors won two first awards, while exhibits from British Columbia won one first, two seconds, and three third awards.

Make Fresh Start

Homes for the aged men are still maintained, but not so for aged women. They say when a woman begins to grow old these days she bobs her hair, shortens her skirt and starts all over again.

An engineer in Scotland has invented a new lubricant, which gives warning of the danger of overheating bearings by emitting a specific odor.

An Ancient Cemetery

Discovery of a cemetery more than 4,000 years old and containing probably the earliest archaeological treasures ever found in Persia was announced by Horace H. F. Jayne, director of the University of Pennsylvania Museum. The find was made at Tepe Hissar, near Damghan.

In Ancient Galilee

The University of Michigan Institute of Archaeological Research has announced that an expedition directed by Prof. Leroy Waterman, has discovered remains of what probably was an early Christian Church at Sepphoris, ancient capital of Galilee.

When a wise man argues with a woman he says nothing.

Disagrees With Einstein

Retreating Stars Determine Size Of Universe Opinion Of Dutch Astrologer

The stars, constantly retreating toward the limitless rim of the Milky Way, are the factors that determine the size of the universe, says Professor Willem de Sitter, noted Dutch astrologer. He spoke on "the size of the universe" in the Frick Chemical Laboratory of Princeton, New Jersey, University.

The universe is of a definite size and it is finite, Dr. de Sitter declared, but it is continually expanding, because of the retreat of the stars, which broadens the limits of the universe.

Dr. de Sitter's exposition is at variance with the theory of Albert Einstein, the German mathematician. Einstein's static theory has the universe starting at a certain size and increasing to become an infinite. After an initial postulate that the whole of space was first filled homogeneously with a certain amount of matter but with no motion.

To this hypothesis Dr. de Sitter compared his own theory of a finite original universe having no matter, only motion. Its size has constantly increased, the professor said, but it still remains finite—or limitable.

Attacks Current War Stories

Canadian Soldiers Not Moral Weaklings Says Lieut.-Colonel Drew.

Lieut.-Col. George A. Drew, who has on former occasions leaped into the centre of the stage as the defender of Canadians in the Great War, assumes his familiar role again. Soldiers, he declares, are not such moral weaklings as they are pictured in current war stories. There is no doubt that Col. Drew speaks truly, and also that his indignation over the tone of some modern works of "literature" is justified. Too many writers, in their urge for "realism," have laid entirely too much stress on happenings which, though probably genuine, do not truly reflect the life of the soldiers in any comprehensive way. They have shown only one side of the picture, and in doing so have been guilty of a great injustice. Many of the books will not make pleasant reading for the children and grandchildren of the men who fought, the descendants who have an inalienable right to a righteous and glorious pride in the achievements of their forbears.

THE RHYMING OPTIMIST

By Aline Michaels

THE FLAME

As a man may kindle a flame that glows

On a hearth in a cold, bare room Till its dancing light, all color of rose, Floods the place with its warmth and bloom.

He has lighted a spark in many lives With the touch of his spirit's fire, He has kindled the dream that through all survives, He has quickened the high desire.

As a blaze with its glamour of ruddy light

Transfigures a room once bleak, So the flame of his courage, clear and bright, Brings the power the timorous seek.

He has brought into lives that were drear and cold,

Into doubting hearts of youth, A gift which has solace for young and old,

The flicker of living truth!

The Lovely Waskesiu

New Waltz and Song Enjoying a Vogue In the West

Extolling the beauties of Waskesiu Lake, the national playground in Northern Saskatchewan, Mr. J. S. Brundige of Regina, has published a song entitled "The Lovely Waskesiu." A very delightful musical setting has been arranged by Margaret Lindsay, also of Regina, and the song has been dedicated "To those who have loafed and fished in the Canadian Northland." Words of the song are as follows:

I've wandered over eastern hills, I've trod the western plain, And revelled in the beauty of the waving golden grain, But nature holds a nobler gem the lovely Waskesiu. O'er hill and dale and winding trail I'm coming back to you.

Thy face reflects the setting sun in many shaded sheen, The woodland marks thy limits with a frame of softest green; Thy waters croon a lullaby, soft as a Mother's song, That soothes to rest the weary mind, while childhood memories throng.

The flowers deck thy verdant banks, the aspens whisper low, And shed a benediction in the silvery new-moon glow. The northland calls her children home to lovely Waskesiu. O'er hill and dale and winding trail I'm coming back to you.

Colorful Career

Death Of Leader Of Miners' Federation In Britain

The death of A. J. Cook, general secretary of the Miners' Federation of Great Britain, removed a colorful figure from the political and economical life of Britain. Cook was 46 years of age.

During his lifetime he was twice imprisoned for taking part in strikes and lockouts. He worked for years as a miner underground. He had served on a host of committees dealing with the British coal problem.

The son of a soldier, Cook was born at Wootton Bassett, in Somerset, in 1885. He was educated at the elementary school and the Central Labor College, London, England. At the age of 17 he preached in a Baptist pulpit, but was turned out of chapel owing to his socialistic views. He joined the Independent Labor Party in 1905 and served on three government coal commissions. He was international government delegate to the coal conference at Geneva.

Cook, who earned the title of "Emperor" Cook during the general strike of 1926, served underground as a miner for 21 years. In 1911 he won a two years' scholarship at the Central Labor College. He was imprisoned in 1918 and again in 1921 for taking part in strikes and lockouts.

Death came at a Hampstead hospital, which he had entered last September for an operation for a glandular swelling in the neck.

New Radio Device

Sensitive Drum-Shaped Pick-Up That Has Great Possibilities

Talkies and radio may have a new larynx in a drum-shaped pick-up of gold leaf only one-millionth of an inch thick. Details of its development were made public at Purdue University, Indiana.

This membrane, 50 to 100 atomic diameters in thickness, is stretched taut like a drum head over a steel ring larger in diameter than a silver United States dollar.

Dr. Karl Lark-Horowitz, head of the physics department, said that the big pick-up reproduces the low frequencies, that is, the deep tones, almost without distortion. It can be used both for pick-up of sound and for loud speaking.

Soviets To Build Autos

Construction of a giant Soviet automobile plant at Nizhni Novgorod has been completed, it is announced and the plant is expected to start production next January. Equipped with the most modern foreign machinery, it consists of 52 shops covering more than 60 acres and with an estimated output of 140,000 automobiles a year. A number of the shops have already started operation.

Harry—"Did you hear that poor Paul Jennings has joined the great silent majority?"

Peter—"No. Did he die?"

Harry—"Oh, he didn't die. He got married yesterday."

Boss—"We expect all girls to work longer from now on."

Girl—"Does that apply to me or just the girls that take their job seriously?"

Canada Well Governed

With Ten Million Population Has 190 More Members Than Britain

In the British House there are 615 members, and the strange thing is that in the House itself there is but seating accommodation for slightly more than 400. Britain has the one central government; there is nothing which compares to our provincial system of rule, and although 615 appears to be a fairly formidable number of parliamentarians it is not so great as the number which we have in Canada. Counting the Federal and Provincial bodies in Canada we find this result:

Ottawa	245
Alberta	63
British Columbia	48
Manitoba	55
New Brunswick	48
Nova Scotia	47
Ontario	112
Prince Edward Island	30
Quebec	109
Saskatchewan	63

Total

So Canada with its ten million population has 190 more governing members than Britain with its population of 47,000,000.

How To Forecast Weather

Missouri Prophet Says It Always Runs In Cycles

Buffalo's mystery man baseball prophet has a rival at Macon, Missouri, in a farmer, unknown to fame, who says this business of weather forecasting is a simple matter if you keep tab of the first ten days of each three-month cycle.

He submitted his scheme, with a challenge, to W. C. Brown, chief of the weather bureau there. He suggested that Brown junk his rain gauges and barometers and adopt his system.

Weather during the first ten days of each three months cycle indicates what will happen during those months, he contends. His cycles begin in January, April, July and October.

Czechoslovakia has started this year public works which will cost nearly \$130,000,000.

Motorists pay \$151,000,000 a year in gasoline taxes.

Cut Down Food Wastage

--- by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

THE MESSAGE OF THE UNITED CHURCH
The minister will preach. We are always glad to have you worship with us.

Town & District

Miss A. Molone of Brooks school staff and Miss Van Vollenburg of the Gleichen school staff spent Saturday and Sunday in Calgary.

Mr. and Mrs. M. McMan and Miss L. Morton of Gleichen spent Saturday and part of Sunday visiting at the home of Miss Morton's parents in Calgary.

The annual meeting of the Meadowbrook Hall takes place Friday night. A social evening will be spent after the meeting.

Dr. A. W. Bowles of Calgary spent a busy day Saturday, in Gleichen in his capacity as an eye, ear, nose and throat specialist.

The date for Gleichen Old Timer Ball has been changed to Friday, December 11th. The reason for the change is that Robert Gardiner had been engaged some months ago to speak at the Meadowbrook Hall on December 11th. The Gleichen Board of Trade members were unaware of this when they set December 11th, as the date to have the ball.

Upon hearing that Mr. Gardiner was to speak at Meadowbrook they promptly changed the date to Dec. 11th.

Last week the skating rink was regraded. It was the best job ever made there. No hole or hollow was to be found in fact the surface of the ground is as flat as a pancake. Jack Leister, the town handy man, has drained the big water tank in town Friday and being a far seeing individual flooded the rink thus giving the ground a good soaking. This time last year was skating at the rink.

Rev. Father Moreau, of St. Victor's Church, Gleichen, left Thursday afternoon for Toronto and other eastern points where he will permanently reside. He has resided in Gleichen a little over a year and has made many friends for himself. Well nigh evening, the evening before he left, Mrs. J. A. Menard had a farewell party in his honor to which a number of Catholic as well as a few Protestant friends were invited.

Herbert Mayes an inmate of Evenden Home died at that institution Friday at the age of 61. Deceased was born in England and came to Canada 20 years ago. The funeral took place in the Evenden cemetery, services being conducted by J. A. Walker of the Salvation Army.

Alex "Diago" MacDonald who has been in the hospital in Calgary for several weeks is doing as well as can be expected.

A good crowd attended the dance at Nankana on Friday evening. All report a good time.

There are lots of geese in the country at present on the larger lakes and in the Bow River. Some of our sportsmen have been successful in securing a few of these elusive birds.

James Hanson of Standard district was brought in last week to Dr. Farquhar for medical attention. He was on horse back leading another horse when the latter animal leaped out with his hind foot striking the man on the leg tearing it open. Several stitches were required to close the wound.

Gerald Yates of Mount Royal College, Calgary, spent the week-end at the home of his parents Mayor and Mrs. Yates.

The tank in the water tower sprang a leak last week. L. Michael Gleichen's trusty plumber got busy and soon plugged up the leak. It was necessary to empty the tank to do this.

Sunday evening snow began to fall and continued most of the night and by morning the ground was covered with a blanket three to four inches deep. If you want to know where to buy read the ads.

Miss K. Schoepke and Miss E. Moore of Calgary, spent a few days in Gleichen visiting Miss Alvina Moss.

Jack Bollinger came into the Cal Office Saturday afternoon with a dandelion in bloom. He states there are quite a number of these flowers near his residence in Gleichen. This goes to show how mild the weather was up till this fall.

Mrs. J. A. Menard recently had pansies in bloom in her garden. And other proof of the mild fall.

It doesn't pay to advertise eh? Just ask Russell McQueen about the ad he advertised last week how quickly it disappeared.

Those who attend the dance at Meadowbrook Hall last Friday report a splendid time. A good crowd was present.

NOTICE

ZONING AND BUILDING BYLAW NO. 229

NOTICE is hereby given that the Council of the Town of Gleichen intend to pass a Zoning and Building Bylaw under the provisions of Section 30 of the Town Planning Act. A copy of the bylaw may be seen at the office of the Secretary-Treasurer between the hours of nine and five on any day not a Sunday or a public holiday. At 8 p.m. on the evening of Monday being the 7th day of December 1931 the Council will meet in the Community Hall in the Town of Gleichen for the purpose of hearing any objections to the bylaw.

M. MURRAY,
Secretary-Treasurer

An aggressive business policy on the part of our business men, reaching out for everything within reach, encouraging all would-be comers, expending money when a two-fold return is reasonably certain, it would seem to be one of the ways to best build up a town. A town is what its people make it. It may slowly grow by the little accretions that accidentally fall within its influence, or it can be pushed into vigorous and rapid growth by the aggressive activity of its business element.

ST. ANDREW'S CHURCH SERVICES
